One of our most popular models is the 160CS, which combines all the luxuries and appointments of the larger 180CS in a smaller package, an excellent choice for waterfront communities with size restrictions. It comes replete with a Captain's dedicated helm station starboard aft, a stern settee with cocktail table, and a large midship granite patterned countertop. Also featuring an AC/DC refrigerator and solid wood table tops and trim, plus an MP3 compatible; AM/FM CD stereo standard on all our models, the 160CS is the perfect boat to party in with friends or to host a meeting with colleagues.
